Full Stack Web Development Certificate - Vanderbilt University; Nashville, TN | **2020**

RELEVANT EXPERIENCE | PROJECT

Bug Tracker | Full Stack Developer | Deployed Link: https://bug-tracker-deployment.herokuapp.com/ |
Github Link: https://github.com/8connor/bugTracker
bugTracker is an application that aims to simplify the process of bug ticket management. This application is currently still under development, but the basic functionality is currently intact. This application uses Auth0, React.js, Node.js, MongoDb, Express, and Bootstrap.
- **Role**: The sole Full-Stack Developer for the application.
- **Utilized**: React.js, Node.js, Express, JavaScript, Auth0, Bootstrap, Mongodb, Heroku, Mongoose, CSS, and HTML

gradeBot | Full Stack Developer | Deployed Link: https://grade-bot.herokuapp.com/ |
Github Link: https://github.com/8connor/gradeBot
gradeBot is a web application developed to create a more modernized way of keeping track of student grades from a teacher, administrator, and even student perspective.
- **Role**: Created the front end UI and logic for the application. Created the backend API calls for database queries.
- **Utilized**: React.js, Node.js, Express, JavaScript, Bootstrap, Mongodb, Heroku, Mongoose, CSS, Passport, Bcrypt and HTML

Collab Soup | Full Stack Developer | Deployed Link: https://sheltered-sierra-68964.herokuapp.com |
Github Link: https://github.com/leivanoe1011/Collab_Soup
Collab soup is a website dedicated to serving the developer community. We have personally found ourselves in the past looking for help on projects that were out of our grasp to handle alone. This website was created to make collaborating with other developers easier.
- **Role:** Created the front end UI and logic for the application. Created the backend API calls for database queries.
- **Utilized**: NodeJs, Sass, Bulma, JavaScript, Heroku, Handlebars, Sequelize, SQL, Passport, Bcrypt, jQuery, HTML and CSS

Home Finder | Front End Developer | Deployed Link: https://leivanoe1011.github.io/home_finder_v2/ |
 Github Link: https://github.com/leivanoe1011/home_finder_v2
A Real Estate website for finding homes in your specified area. It shows prices, information on the homes, and features a favorites button.
- **Role**: Created the front end UI along with front end logic for API calls to get information on the homes.
- **Tools Utilized**: JavaScript, Materialize, HTML, CSS, and jQuery

PROFESSIONAL EXPERIENCE

Techni-Glass Inc.; Surgoinsville, TN   09/2020 - Present
Data Entry Specialist
Enter customer and account data from source documents within time limits. Compile, verify accuracy and sort information to prepare source data for computer entry. Review data for deficiencies or errors, correcting any incompatibilities and checking output.
